

2017 FORTIX® FUNGICIDE “ONE AND DONE” PERFORMANCE PROGRAM FOR CORN AND SOYBEANS

FORTIX Fungicide — The Flexibility of One Early Application for Season-Long Fungicide Benefits.

By combining a highly systemic, fast-acting strobilurin with the longest-lasting triazole, FORTIX® Fungicide lets you spray once – whenever and however you want – for season-long fungicide benefits in corn and soybeans. FORTIX Fungicide can be applied early, allowing growers the flexibility of applying via ground equipment or by aerial application. Whatever your application preference, FORTIX protects your investment, improves plant health and maximizes return on every acre with just one application.

2017 “One and Done” Performance Program

If FORTIX Fungicide is applied as outlined in the chart and it does not maintain commercially acceptable control of labeled diseases versus an untreated check, Arysta LifeScience will replace your FORTIX Fungicide to be used toward the retreatment of the field in the same year.

CROP	GROWTH STAGE	APPLICATION RATE	APPLICATION METHOD
Corn	V5 – V8	5 fl oz/A	Ground (min of 10 GPA) or Aerial (min of 2 GPA)
Soybeans	V5 – R5		

THE 2017 FORTIX FUNGICIDE “ONE AND DONE” PERFORMANCE PROGRAM

Rules and Conditions:

1. Apply FORTIX Fungicide at the recommended rate and timing as outlined in the table.
2. An Arysta LifeScience representative must be notified prior to retreatment of your crop and must have a reasonable opportunity to inspect prior to making any rescue applications. The Arysta LifeScience representative must confirm level of control obtained.
3. Only FORTIX Fungicide purchased from an authorized Arysta LifeScience distributor is eligible for this program.
4. Arysta LifeScience reserves the right to audit all claims.
5. All settlements are subject to final approval by Arysta LifeScience North America, LLC.
6. Arysta LifeScience is in no way responsible for any grower failure to pay the retailer.
7. Additional information will be required by your Arysta LifeScience representative for settlement of program.
8. Arysta LifeScience reserves the right to change any or all details of the 2017 FORTIX Fungicide “One and Done” Performance Program for Corn and Soybeans without notice.
9. Program limited to corn or soybeans grown in CO, CT, DE, ID, IL, IN, IA, KS, ME, MA, MD, MI, MN, MO, MT, NE, NH, NJ, NY, ND, OH, OK, PA, RI, SD, UT, VT, WA, WV, WI, WY.

To find out more about the FORTIX Fungicide “ONE AND DONE” Performance Program, talk to your retailer or your Arysta LifeScience representative.
